## The Range of Modern Small Arms.

An English writer states that the range of small arms has so greatly increased of late years that the Government in many instances has found it necessary to change the practice grounds. The school of musketry in Hythe is to be transferred to other quarters and a tract of ground near Dungeness has been selected for the purpose. At some rifle-butts on Hounslow Heath, near London, used by regulars, a singular example of the long range of the Martini-Henry rifle was given some time ago. A soldier of the Seventh Foot accidentally discharged his piece while at a slight elevation. The bullet was firing at the 1,000-yard range, and the errant bullet passed over the targets and struck the front door of a gentleman's house exactly one-and-one-fourth miles beyond the butts, passing through two and a half inches of solid oak and falling spent in the lobby, much to the alarm of a servant, at whose feet the missile dropped. In this case, the ball, after traveling 3,200 yards, or only 230 yards short of two miles, had still force enough to penetrate two and a half inches into wood.

Cincinnati's accomplished astronaut, James Hayden, says St. Jacobs Oil is the best medicine ever put up, and has done him immense service in curing his rheumatism.

## Automatic Car-Coupler.

The Simplest, Cheapest and Most Durable Automatic Coupling for Freight Cars ever Invented. Easily and Quickly Repaired when Desired.

Can be Used in Connection with the Present Pin-Coupling without Inconvenience. The Draw-Head will Pull Out before the Coupling will Break.

THIS INVENTION consists of a draw-head, *B*, in illustration, in which is the usual chamber *a* and is provided with a flaring face. In its bottom is made an aperture, *c*, the front wall of which is vertical, and the rear wall is beveled from the rear downwardly, as shown. The top of the draw-head is provided with an aperture, *b*, the rear wall of which is curved. The front wall is inclined from the inside or lower edge backwardly, forming a point, *o*, and thence forwardly in a concave curve, ending in a convex curve, as shown.

*C* is the latch. This consists of two arms, *e* and *e'*, extending about at right angles and meeting at their bases in a hub, *e*, the outer face of which is rounded and fits in the concave curve of the front wall of aperture *b*. This latch is hinged in the front of the said aperture by a pivot, *D*, through the walls of the draw-head and through the hub *e*. The arm *e* upon its forward side is notched out at *o*. When at rest in the aperture *b*, the latch lies with its arm *e* extending downwardly across the chamber *a*. Its lower end is curved backwardly and upwardly and fits down into aperture *c*, its front abutting against the straight wall of said aperture. The arm *e'* extends backwardly in the top of aperture *b*, and its rear end is curved to correspond to the rear wall of said aperture. The operation of the latch is as follows:

When the link enters at any point within the flaring front of the draw-head it strikes or is directed against the front of arm *e*. This is pushed back and up upon the pivot *D*, the latch *C* turning on its curved base in its bearing and throwing the arm *e'* up out of aperture *b*. When the link has passed the arm *e* the latch *C* returns to position, the arm *e* falling through the link and the arm *e'* returning within aperture *b*. The strain is resisted by the arm *e*, which has two points of impingement—namely, one below against the front wall of aperture *c* and one above against the front wall of aperture *b*. The point *o*, fitting in notch *o*, lends support to the latch and resists the strain upon the link. It also prevents the latch, should the pivot-pin *D* work out, from working up through aperture *b*. It may become necessary sometimes to lift the latch *C* and throw it back in a position in which it will remain without falling. For this purpose enough space is left between the pivot *D* and the upper portion of the rear of the draw-head to change the center of gravity to a point forward of the pivot-pin. To insure this effect I put more weight into arm *e'* by inclining its lower side, as shown. This will keep the latch up when thrown back against the top. In order to raise the latch to disengage it from the link I have the following device: *E* is a rod extending in suitable guides, *m*, from the top of the car down its end. The upper end of the rod is provided with a knob, *n*, and has upon its inner side a series of ratchet-teeth, *r*. Upon top of the car and extending over the end is a pawl, *s*, with which the teeth *r* engage when the rod is raised to secure it at any height. To the rod *E*, near its lower end, is secured an arm, *F*, to the end of which a chain, *G*, is attached, the other end of which is secured to the rear end of arm *e'* of latch *C*. By raising the rod *E* the latch *C* may be drawn up to free its arm *e* from the link. When the rod is released from the pawl *s* the latch drops back into position. The aperture *c* in the bottom of the draw-head not only furnishes a point of resistance for the arm *e*, but is for the purpose of allowing stones, &c., to drop through, to prevent any obstruction to the said arm in finding its place. This is an advantage, as it keeps the arm from becoming worn. For further information and privileges please address

**A WORD TO THE FARMER.**

The value of barn-yard manure or any other fertilizer is admitted by every farmer. But what is the use of a fertilizer of any sort except to make land productive? And of what avail is productive land if you cannot sell the product? The great question after all, for the farmer, therefore, is the question of a market—but what market? There are two markets for the farmer—the foreign market and the home market. Which is the most desirable? Why, the home market, of course, because it is in the sale of his products in the home market that the farmer makes his money, and it is for that reason that only the surplus that he cannot sell in the home market is sent abroad. Everyone of the 50,000,000 of our home population consumed on the average last year \$160 worth of that which was produced by agricultural labor and capital. Now suppose our 50,000,000 of population were not able to buy that much—suppose the consumption to fall to \$80 to each person! Who would be the greater sufferer? Why, the farmer, of course. It would be ruin to him. Well, that is precisely what would happen if Democratic free trade were inaugurated again, and the wages of the laborer, the mechanic, the artisan, the professional man reduced, as they would be reduced, to starvation rates. Let the farmer see to it first that protection to labor is continued, and then attend to the other fertilizers.

**A NEW CAR COUPLES.**

Humanitarians have been seolding ever since the invention of the locomotive at the immense loss of life and limb suffered by the classes who have to handle the trains. Inventors have studied hard and tried to get up an automatic coupling that would do away with the necessity of brakemen going between the cars to couple or uncouple them. Over 4,000 such inventions have been patented, and one for passenger trains has been found very satisfactory. N. D. Muesey of Reno has just received a patent for the one described elsewhere, which for simplicity, cheapness and effectiveness, would be a great advance over the old drawhead.

**EDITORIAL NOTES.**

The Democrats won the Ohio election yesterday. Governor Foster accounts for the Republican defeat on the ground that they had eight or ten candidates in each district, and that bitter fights were made. He assigns as another reason that the liquor interest went over in a body to the Democratic party, not only furnishing means but were active in polling a full vote. He is of the opinion that if the Republicans had brought out their full vote the Democrats would not have carried the State. Let this be a warning to Nevada Republicans to spur them on to campaign work for the 7th of November.

The name of Theodore Winters has been substituted on the Washoe county Democratic ticket for the State Senate in place of that of the Hon. W. E. Berry, declined. Theo. Winters ought to be a hard horse to curry, and we are inclined to think his Republican opponent won't be a "Marker" for him in the November race.—*Virginia Chronicle*.

It becomes the GAZETTE's duty to inform the *Chronicle* that there may be "Winters" when Theo. will occupy a seat in the State Senate, but not this Winter. "Marker" down so it won't be forgotten.

The Eureka *Leader* says scarcely a corporal's guard turned out to hear Cassidy and Merrill in any place in Elko county.

The Carson *Index* refuses to support the Ormsby county Republican ticket and has gone over to the Democracy. C. N. Harris is still its editor.

The brewers of Chicago have decided upon an advance in the price of beer by the barrel.

**TO-DAY'S NEWS**

Press Dispatches to EVENING GAZETTE.

**EASTERN DISPATCHES.**

**The Ohio Election.**  
CINCINNATI, October 11.  
The Gazette's Columbus special gives the following as the probable list of Congressmen elected: Democrats—Follet, First District; Jordan, Second; Lafave, Fourth; Zaney, Fifth; Hurd, Tenth; Converse, Thirteenth; Williams, Sixteenth, Foran, Twenty-first; total, 8. Republicans—Schmetz, Third District; Keifer, Eighth; McCormack, Eleventh; Horr, Fourteenth; Updegraff, Seventeenth; McInley, Eighteenth; Taylor, Nineteenth; McClure, Twentieth; total, 8. This leaves five districts doubtful. Of these it is probable Campbell is elected in the Seventh District and Hart (Rep.) in the Twelfth.

At three o'clock 769 precincts show a net Democratic gain of 24,480, indicating a net Democratic majority in the State of 35,000.

**CINCINNATI, October 11.**  
The *Enquirer* will claim fifteen Congressmen and will say the victory is decisive and overwhelming, and that it disposes of Foster in politics. The *Commercial* attributes the disaster to the interference of Governor Foster and Richard Smith, whereby the German Republican vote was alienated.

New York, October 11.  
Newspapers here generally attribute the defeat of the Republicans in Ohio to the defection of Germans.

**CINCINNATI, October 11.**  
Complete but unofficial returns from Hamilton county show the following Democratic majorities: Newman, Secretary of State, 10,650; O'Key, Judge Supreme Court, 9,809; Weiler, Board Public Works, 9,754; Hawkins, Sheriff, 11; Dalton, Clerk, 937; Pugh, Attorney, 2,638; Muscroft, Coroner, 2,644; Robinson, Recorder, 2,738; Kahe, County Commissioner, 3,177; Cosgrove, County Solicitor, 3,555; Follet, Congress, First District, 889; Jordan, Second District, 1,763. The Republicans claim the election of Beresford for Sheriff.

**DAYTON, O., October 11.**  
In a political quarrel at Soldiers' home last night August Moeke stabbed John Dean in the groin. In another political row a saloon keeper was fatally stabbed, and there were several other rows caused by the interference of a crowd of roughs at the polls to prevent votes being cast against saloon interests. Whisky and disorder were the chief factions in the election.

**CLEVELAND, October 11.**

Edwin Cowles of the *Leader* says: The Republicans met an enemy led by John Barleycorn and King Gambrinus, and were routed. The cause of their defeat can be traced clearly to prohibition. When our Republican Legislature passed a law taxing saloons, which has since been declared unconstitutional, and the law closing saloons on Sunday, the German element, about 20,000 in number, obeying orders from their leaders, resolved to punish the Republicans for their tenacity by voting with the Democrats, and to this is added the general stampede of Republican workingmen on account of being worsted in strikes, particularly in that of the Cleveland rolling mills. A director of that company, Mr. Everett, was nominated for Congress by the Republicans, and became a target for working men. Hence his signal defeat in a strong Republican district. Impracticable prohibitionists drew largely and entirely from the Republican ranks and aided greatly in helping the saloonists and Germans in punishing that party. It was simply an illustration of how extremes meet. Then the other temperance men throughout the State were in a lethargic state and made no effort to show that they appreciated what the Republicans had done for temperance, resulting in an army of stay-at-homes. To cap the climax the Democrats were aided by a most efficient corps of assistants, consisting of 15,000 saloonists and 5,000 bar-tenders, making a force of 20,000, who electioneered and did all the work in detail and stood around 1,999 polling tickets, in addition to other classes of workers. They assessed themselves and contributed, with what brewers gave, nearly \$100,000 to the State Central Committee, to be used as a corruption fund. All these causes have resulted in the Republicans losing the State by from 15,000 to 20,000 plurality. The Republicans have lost a Congressman in Cleveland District, two in Cincinnati, and one in Toledo District. Judge Geddes has defeated Horr (Rep.), and Updegraff, McKinney and Keifer are in danger. Probably a very great majority of our 21 Congressmen will be Democrats. Republicans had a similar experience in 1874, the year the ladies were engaged in a temperance crusade movement, but they recovered the following year, when they elected Hayes Governor. It is clear that Ohio, with its large foreign element and whisky-drinking Democrats, with its two parties so evenly matched, cannot successfully follow the example of Kansas and Iowa, which have generally gone Republican by from 50,000 to 80,000 majority. In those States Republicans outnumbered Democrats three to one. Hence the temperance character of their people.

**DAYTON, O., October 11.**  
Republicans in this part of the State and the Third Congressional

District have experienced an unprecedented Waterloo. The Democrats have elected everything from top to bottom of the ticket.

**More Mob Law.**

**EVANSVILLE, Ind., October 11.**  
At ten minutes past 3 this morning about 100 men from Posey county on horseback quietly surrounded the county jail. The Sheriff was warned only a moment before the mob arrived, and before he could get to the outer door the mob was on him and held him prisoner. They then took a sledge hammer and battered in the door leading into the jail and made their way to the cell of Raymond, the wife beater, burst in the door, tied his hands and beat his head with a hammer. They then dragged him out and drove off in a buggy. The police on arrival commenced firing down the street in the direction of the mob, and one of them named Dave Murphy, living near Redman's home in Posey county, was killed. Another man named Mills, from the same neighborhood, now in jail, is supposed to be one of the mob.

**Troubles in Texas.**

**AUSTIN, Texas, October 11.**  
Serious trouble is anticipated at Rio Grande City growing out of the murder of the county surveyor some days ago. Rangers have been asked for to assist in preserving the peace, but it is impossible to furnish them, as the nearest available force has its hands full in keeping down the outlaws of La Salle county.

**Gold, Silver and Copper.**

**AUSTIN, Texas, October 11.**  
The Adjutant General, just back from a trip along the front, reports rich deposits of gold, silver and copper in the vicinity of Guadalupe and Waco mountains. The General on the road to Dallas discovered extremely rich deposits of gold and silver near Carizosa.

**Demoralized Republicans.**

**CINCINNATI, October 11.**  
The Gazette says the demoralization of the Republican party in Ohio and Pennsylvania is partaken of in New York politics and the National Government. The extravagance of the last Congress and the temperance question are responsible for the result.

**Registration in New York.**

**NEW YORK, October 11.**  
Registration in Brooklyn to-day is 42,495, against 39,625 last year and 48,254 in 1880. For two days it is 71,781. The first day's registration in this city shows a total of 55,222, against 55,670 last year and 72,588 in 1880.

**FOREIGN TELEGRAPH.**

**Affairs in Egypt.**

**CAIRO, October 11.**  
Preliminary inquiries all tend to support Arabi's assertion that the outrages perpetrated during the rebellion were committed against his will.

One of the chief eunuchs of the palace entered the cell of Abdul Goffer, a political prisoner, roused him from sleep, spit in his face and put other indignities upon him. The eunuch proceeded to Arabi's cell and acted in a similar manner, but with greater violence. Several officers of the palace are accused of complicity in the outrages.

Correspondents accompanying the British army in Egypt will receive the decoration of the Order of Medjidli.

Sir Charles Wilson is satisfied of the impartiality of the judges appointed to try the rebel leaders.

According to advices from the interior, British occupation produced little or no impression.

**The Wrecked Steamship.**

**Cape Race, October 11.**  
The wrecked ship Herder, it seems, must have come pretty close around Mistaken Point, as her present position plainly indicates. Had she been a little more than a length further off she would have cleared everything. Half a length closer to shore would have proved fatal to all hands. Salvagers are taking the cargo out and 2,000 packages are already landed.

**St. John, N. F., October 11.**  
The steamer Neptune arrived with passengers, mail baggage, specie, etc., from the wrecked steamer Herder. The German Consul met the people on the wharf and had all sent to comfortable lodgings.

**Prerent to a Priest.**

**DUBLIN, October 11.**  
Father Sheehy has been presented by his parishioners with an address and testimonial valued at £2,500.

**WESTERN TELEGRAMS.**

**A Sick Millionaire and a Well One.**

In New York yesterday the Australian eleven defeated the American eighteen in a cricket match, with seven wickets to spare. The Americans' score was 129 runs.

At Providence, R. I., yesterday, the first of a series of nine games of baseball between the Providence and Chicago clubs was played. Score: Providence, 10; Chicago, 4.

The Illinois Improvement Company, of Chicago, was incorporated at Springfield yesterday. Its object is to build a ship canal from Lake Michigan to Grand Crossing, the point at which the Eastern railroad trunk lines converge.

An El Paso, Ill., special says that a fire there yesterday afternoon burned an entire block of wooden buildings, including the El Paso Hotel and fourteen business houses. Loss, \$10,000; partially insured.

The President has appointed G. W. Ward Receiver of Public Moneys at Susanville, Cal.; A. H. Johnson agent for the Pima Indians, Arizona, and Henry H. Morgan, Secretary of Legation of the United States to Mexico.

**LEIBIG MALT EXTRACT.**

RECOMMENDED BY PHYSICIANS of the highest rank, as a valuable tonic and restorative in cases of General Debility, Nervous Depression, Biliousness, Constipation and Female Weakness.

**NURSING MOTHERS**, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and causes a generous flow of milk.

**WEAK AND SICKLY CHILDREN**, who suffer from feeble and nervous, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

**INVALIDS AND CONVALESCENTS** will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment the Extract will prove an excellent substitute for food. It neither poisons the appetite nor offends the taste.

**DELICATE FEMALES**, who suffer from the weakness of their sex, will derive benefit from its use. It facilitates the digestion, purifies the blood, stimulates the appetite, and restores the system.

**WEAK AND DELICATE PERSONS GENERALLY**, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Coughs and Nervous Affections usually incident to a low state of the system.

**AS A FLESH RESTORER** it possesses the highest value. The whole tendency of its action is to stimulate the system, and to restore the system to its normal condition and bring back the bloom of youth.

## PERSONALS.

Chancellor Derby is in town.  
J. H. Moon is in from the north.  
Alvaro Evans has gone to the Bay.  
The infant child of Louis Craft died yesterday.  
Bishop Monogue is in Marysville, California.  
J. D. Torreyson, Carson, was here last evening.  
Dr. Davison has returned from Cedarville and Fort Bidwell.  
L. P. Draxler passed through to San Francisco last evening.  
E. D. Boyle, Superintendent of the Alta mine, came up on the morning express.  
Senator Fair has donated \$300 for the benefit of the Nevada Orphan Asylum.  
Messrs. Leonard, Bishop, Powning, and Hallock will speak at Battle Mountain this evening.  
E. L. Bridges came on this morning's train from survey work at Camp 25, near the Summit. He will return to-morrow.  
George Tuttle and Henry McCann left for San Francisco last night. They enjoyed the Fair, and made lots of friends during their visit.  
Bishop Whitaker went to San Francisco, in response to a telegram from Crittenden Thornton and Seth Cook, to officiate at the funeral of Daniel Cook, the mining millionaire.  
F. R. McConnell of Salt Lake is registered at the Depot. He is General Agent of the Union Pacific Railroad Company at the City of Saints.  
General J. B. Barrios, President of the republic of Guatemala, with his Secretary, F. C. Cruz, will pass through Reno to-night on the overland express for San Francisco.  
Old Winnemucca, the ancient chief of the Putes, is slowly dying at Buffalo Meadows, in Roop county. According to Pute chronology, the venerable warrior is about 95 years old.  
Mrs. W. D. Wagar, J. F. Aitken, Miss Eva Barnes, P. H. Mulcahy, T. F. Laycock and G. E. Holesworth, delegates from the Reno Lodge of Good Templars, went to Carson this morning to attend the Grand Lodge.  
Mrs. Sophia Steel, mother of William and Robert Steel, died at the residence of her son Robert, on Truckee Meadows, aged 85. The funeral took place this forenoon, and was very largely attended, a long line of carriages showing the estimation in which the deceased was held.  
Thomas Mutton, a Comstock miner who went to England with James Rowe, the man who lost both arms and both eyes by the explosion of a premature blast in the Forman shaft of the Overman mine several months ago, has returned. He reports the scene of Rowe meeting his relatives as most heart-rending.

## GOOD NEWS.

A Market Opened for Nevada with the East.

The Eureka Sentinel is informed that the Union Pacific and Central Pacific railroads have made an adjustment of rates by which the people of Nevada will hereafter be enabled to get their goods from the East—New York, Chicago, St. Louis, or anywhere else—without paying tribute to San Francisco. The details of the adjustment cannot be given at present. It may be stated, however, that a very material reduction has been made in the freight on staple articles, especially on hardware and groceries. On all of such articles the freight will hereafter be never more from New York or Chicago to Reno, or any other point in Nevada, than it has hitherto been from San Francisco to the same point, and on some of the articles the freight will be less—that is to say, you can buy any of the staple articles of the sort referred to in the East and have them laid down for the same freight that you would have to pay from San Francisco, and on some of the articles the freight will be less. To say the least of this adjustment it gives the people of Nevada the benefit of Eastern prices. Instead of buying in San Francisco goods shipped thither from the East, paying the middle-man his profits, which includes freight, handling and percentage, you buy from a cheap market direct. The advantage to Nevada, particularly now, in these times of depression and enforced economy, can hardly be overestimated. Everybody will be benefited by it, directly or indirectly, the merchant, the miner, the lawyer, the doctor, our sisters and our cousins and our aunts. And the prettiest part of the story is that the tantalizing and disastrous delay of seeing our freight go by us to be hauled back from over the Sierras, will cease. The understanding is that all freight will be shipped to its destination direct.

## The Closing Race.

In the race yesterday Arnold won the fourth heat in 2:43 1/4. The next was a dead heat in 2:44, and Queen was sent to the stable for not taking a heat in five. Crabb won the last heat in 2:49 1/4.

## District Court Proceedings.

In the District Court yesterday Jacob Leonhardt was made a citizen, renouncing his allegiance to His Majesty King Ludwig of Bavaria. In the case of Wooley vs. Fraser it was ordered that defendant have 20 days stay of execution. The cases of Towle vs. Thompson, Est vs. Thompson, Bowers vs. Thompson and Rogers vs. Thompson, by consent of parties, were continued to November 13.

## November Meteors.

A brilliant display of meteors is looked for in November, for the reason that the present year has been exceptionally prolific of celestial and electrical phenomena. If we are not badly fooled the Nevada Democracy will wake up on the morning of the 8th of that month with the firm belief that the sun and moon and all the other heavenly bodies have been showered down on this part of the universe. In fact, there will be a "conjunction," as astronomers say, that will astonish not a few.

## The Douglas County Ticket.

The Douglas County Republican Convention last Saturday nominated the following ticket: Henry Vansickle, State Senator; Assemblyman, A. C. Pratt; Recorder, George Smith; Sheriff, H. P. Burnham; Clerk, A. B. Boles; Treasurer, A. Livingstone; Assessor, Noah Blossom; County Commissioner (long term), M. H. Cary; District Attorney, D. W. Virgin; Public Administrator, Koppel Rice; County Surveyor, C. P. Young.

## Another Sweep.

The railroad company are making another sweep among the conductors. John Conner and Dick Moore are gone from the mountain division, and the papers are lying at Wadsworth for two men on this division, but who they are no one knows. Hopkins and Davis are the victims on the Humboldt division and Snider and Whalen from the Salt Lake division. On the west and below Sacramento Seymour and one other are off.

## A CORNER ON BEEF.

A Great Increase in Price Probable During the Coming Winter.

The price that beef may reach in the next few months lies entirely with a few men who have not only secured the entire supply of beef cattle available for this State, but by a combination of circumstances have been enabled to shut out all chance of supply from outside sources they do not control. The latest wholesale quotations for beef cattle in San Francisco are seven and a half and eight cents for prime, nine to nine and a half cents for stall feed, six and a half to seven cents for second quality, and five and a half to six cents for the poorest beef in the market. The opinion of those most competent to judge is that before February fifteen cents will be asked for prime, and from eight and a half to twelve cents for all inferior grades, and that even these high prices will be still farther advanced, unless the increase in prices causes a large falling off in consumption. For some time these prices will cause a serious reduction in the profits of the restaurants, which will be finally compelled to advance their prices. Many of San Francisco's most cherished institutions will thereby be swept away. The restaurant which supplies its customers with a plate of meat, bread, vegetables, butter and coffee for fifteen cents, will have to succumb to the bull beef ring, and no compensating establishment will be found to take its place.

There is no such thing as "grading" beef among Reno butchers. They pay the same price for an old skeleton of a cow as they do for a prime fat steer. Beef is selling here for less than in San Francisco, because, perhaps, most of the dealers have a stock of cattle on hand; but what the price will be when they find it difficult to obtain animals fit for slaughter, no one can tell. Probably they will not be far behind their San Francisco brethren in their charges.

## JOTTINGS.

J. K. Everett's is the place to go to.

J. E. Stanaway is the conductor on the N. & O. Railroad.

Canned goods and choice groceries of all kinds at J. K. Everett's.

China Jim is in the cooler for stealing an overcoat from Abraham Bros.

Last night 119 immigrants went west. This morning nearly 200 went east.

J. H. Moon has a horse, buggy and harness for sale cheap. See 50 cent column.

Paymaster George Mills was here last evening settling up with the V. & T. employes.

Scrap books at Nasby's Bazaar. Thermometer at 7, 9, 11, 1 and 3—42, 48, 53, 54, 67.

Beemer is in bad luck. He had another dray-horse crippled yesterday by picking up a nail.

A large reel of flat cable from Gold Hill came down on the V. & T. at noon, destined for Eureka.

The Truckee river is almost booming again, the volume of water being twice what it was a week ago.

The Greenville band-wagon is homeward bound, having started this morning with two drivers and one passenger.

Next Sunday morning Old Phil of the Wine House will begin to serve out prime egg-nogg, such as he used to give his customers last winter.

Abraham Bros. have been doing a large business all the week. Visitors to the Fair were sure to find their way to the White House, and once in they dressed up.

There will now be quietness in the air of the tiger, and chuck-a-luck, rouge et noir and other traps for the unwary will be laid aside until next Fair time.

But nine days now remain in which to register. Voters will bear the fact in mind. Unless registered you cannot take a hand on election day. Don't get shut out, Republicans.

T. H. Goodman, General Passenger Agent of the Central Pacific, has gone East to arrange a through passenger rate to the East, via Denver and the Chicago, Burlington and Quincy route.

The Fair is over, but the Wine House is doing just as much business as ever. Every man about the place was busy this morning filling wholesale orders. Chielovich & Co. is a good firm to deal with.

The emigrant train was two hours late this morning, caused by a slippery track and an unusually heavy train. Three engines were required to pull it to the Summit. There were five passenger cars and 32 freights.

The comet this morning was a grand sight. It spread its tail like a proud peacock. It is at its peak of magnificence. The celestial show will be free to observers but a few days longer, as it will soon fall to rise above our horizon.

## Going Below.

The Carson Guard will send a team of twelve men to take part in the annual shooting at Shell Mound Park, Oakland.

## Notice to Voters.

Particular attention should be called to the fact that the stipulated time for registration is fast drawing to a close, and those who desire to vote this Fall must not fail to get their names on the register before the 20th inst.

## The Handsomest Girl.

Miss Ella Mills was voted the handsomest girl at the Catholic Fair at Kimball Hall last evening, and awarded the prize. She had 71 admirers, and that number gave her a good majority.

## DIED.

STEEL—On the Truckee Meadows, October 9, 1888, Mrs. Sophia Steel, mother of William and Robert Steel, aged 85 years.

**THE GREAT SUCCESS.**

**"THE TAMPICO."**

Pat. July 22, 1873; Aug. 3, '78; Aug. 3, '80; Jan. 2, '82; April 4, '82.

**THE TAMPICO CORSET** is boned with the Tampico Fibre, in substitution of the old fashioned Rigid and Breakable Bones. The Tampico Stay will not be affected by heat, cold or perspiration, and while it affords a more comfortable support than any other, it cannot be broken, however severe a test it may be exposed to in wear. It is so pliable that it conforms easily to the body in every position, and affords a most comfortable support to the wearer. It will be refreshing to ladies to find in "The Tampico" a corset that will never break. As an evidence of its intrinsic merits, A REWARD OF TWENTY DOLLARS is offered to the wearer of every Tampico Corset in which any of the Tampico stays break. It has the valuable patent attachment known as the triple back which affords a complete protection to the spinal column (the most vital part of the body,) thereby preventing back-ache, spinal irritation and allied diseases to which ladies become subject from exposure, by leaving an open space at the back, as they invariably do, in lacing the ordinary corset. "The triple back" supplies a covering for the open space, and thereby protects the spine from cold, prevents wear of the undergarments by friction of laces, and gives a smoothness of fit to the back of the dress, making it a most valuable and necessary feature to all corsets.

Beware of a variety of Imitations of the "Tampico" made with cord, round reed and other inferior materials.
